Build your muscle while losing fat

CMSLIM is a body contouring machine, designed for aesthetic purposes. It uses focused electro-magnetic field with safe intensity level. Electro-magnetic field passes non-invasively through the body and interacts with motor neurons which subsequently trigger supra-maximal muscle contractions.

CONTOURING MASTER CMSLIM

Find Your Fit

CMSLIM's treatment session requires no anesthesia, incisions, or discomfort. In fact, patients are able to sit back and relax, while the device performs the equivalent of more than 20,000 painless crunches or squats.

Single treatment session takes 30 minutes only, and there is no downtime. 2-3 treatments per week, would be enough for perfect result for most people. Generally, 4-6 treatments recommended.
