

Plasma Skin Rejuvenation Therapy

PURISMA

PURISMA creates and delivers patient-friendly energy in the form of plasma to purify and rejuvenate skin by improving facial lines and wrinkles. Also, it is effective to various types of scars as well as skin pigmentation associated with photoaging.

PURISMA energy is transferred into every layer of skin by specially designed JET handpiece and SPOT handpiece which provide various applications from Inject to Space and Touch.

Advantage

Purification

Brightening

Regeneration

Sterilization

Transdermal Drug Delivery System

Specification

- Dimension

Main Unit: 28(W) 30(D) 11(H) cm

Handpiece: 24(W) 4(D) 5(H) cm

- Weight

Main Unit: 2.2kg

Handpiece: 0.2kg

- Power Input

AC240V / 60Hz

- Maximum Output Power

SPOT : 2.5W / JET : 4.0W

What is Plasma?

Plasma is one of the four fundamental states of matter, while the others are solid, liquid, and gas. Unlike these three states of matter, plasma does not naturally exist on the Earth, and can only be artificially generated by continuously transmitting the energy to gaseous material.

Treatments by Handpiece

SPOT 

Round Needle (W / Touch)

- Skin Tightening (Eyelid & Lips)

Fine Needle (W / Space)

- Various Scars
- Stretch Mark

Fine Needle (W / Inject)

- Epidermal pigmentation
- Acne treatment (Combine W / JET)

JET 

Jet (W / Space)

- Brightening & Toning
- Purifying & Sterilization
- Pore Clogging

Plasma Dermatology

The diagram shows a cross-section of human skin with four layers labeled: STRATUM CORNEUM, EPIDERMIS, DERMIS, and SUBCUTANEOUS TISSUE. A handpiece is shown applying plasma to the surface. Water droplets are shown in the epidermal layer, and collagen fibers are shown in the dermal layer.

Each application such as Space, Touch and Inject with SPOT or JET Handpiece targets a different layer of human skin, transferring Plasma Energy in order to purify and regenerate human skin.

- JET HP sterilizes and purifies skin surface,
- SPOT HP with Round Needle stimulates epidermis layer to induce regeneration of collagen - 0
- SPOT HP with Fine Needle targets various scars, penetrating into deeper layer of epidermis.

Benefits of Purisma

 **Non-Invasive**
No surgical operation needed

 **Various Applications**
Possible to apply in various symptoms

 **Time-Saving**
Short time to treat & down time

 **Cost-Effective**
Much Cheaper than Surgical Operations

 **Clinically Proven & Safe**
No Physical Wound & Severe Pain
